Prairie Senior Cottages

Connecting ♦ Caring ♦ Creating

THE MENTOR PROGRAM

We are a company that creates career advancement opportunities for our employees. The Mentor Program is designed to propel staff who have shown reliability and grit to the next phase of their career in health care with Prairie Senior Cottages.

This special program is a yearlong commitment of learning, sharing, and working together on extraordinary projects to make the lives of our residents and employees better.

Many of our graduates now serve in roles that go beyond what they ever imagined. Mentors who show dedication to our company values find career advancement is a natural progression of their passionate leadership. One may apply for this program once a year. The spots are limited. To be selected for this remarkable opportunity, the cottage leadership team must approve of the candidates.

Examples of Mentor Projects

- Intergenerational Program
- Animal Assisted Activities
- Therapeutic Hand Reflexology
- Day 1 Onboarding New Employees

"Everyone here is someone's hero"
